Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner proposed an examiner's amendment for correcting claim objections and 35 U.S.C. 112, 2nd paragraph problems in the claims. Examiner stated that claims 6 and 7 were amended to depend from claim 5 since both claims further limit the subject matter of claim 5. Examiner stated that he recognized applicant's intention to make claims 6 and 7 depend from either claims 1 or 5 and proposed amending the claims by adding new claims 14 and 15 to ultimately depend from independent claim 1 in order to properly set forth the tail hook with proper antecedent basis along with its associated structure and also the spinner supported by the tail hook. Examiner proposed canceling claims 12 and 13 as being drawn to non-elected Species II since independent claims 1 and 5 are not generic to non-elected Species II. Applicant agreed to the proposed changes.
